PERSONAL SUMMARY

After 5 years in tech providing IT support, I decided to take the leap into the world of code, in order to improve the user experience and find ways to prevent the day-to-day issues I had become so accustomed to resolving. Having undergone the 2-month intensive Le Wagon bootcamp, I am looking for a role that will focus on further learning, professional development, and present opportunities for progression.

PROJECT SUMMARY

THEGREENROOM

http://enterthegreenroom.co.uk

- I led a team of 4, following my pitch for the Green Room, which was chosen to be developed as our final project.
- It's a platform that aims to reconnect live music venues directly with emerging artists streamlining the booking process and removing third parties from the equation.
